Codelocks

Key Features & Benefits

Bewator produces the best selling range of Codelocks in the world. Security installers, locksmiths and electrical contractors on six continents make Bewator Codelocks their natural choice for offices and apartment

blocks. Easy to install and maintain, the K-42, K-44Duo and K-12 Codelocks support separate codes for controlling access for different groups of users

Bewator Codelocks

The Bewator K-42, K-44Duo and K-12 Codelocks offer a simple but effective solution for protecting property against unwanted visitors. Suitable for both internal and external doors, 3 models of Codelock are available to best suit the customers requirements, whether it be for an increased number of codes for different access levels at specific times of the day, or even integration into an intruder alarm system allowing arm/disarm control from the same unit.

K-42 Features - The world's most popular Codelock

Simple to install, supports 2 separate codes allowing one for caretakers/ tradesmen and one for tenants/ employees.

- 2 separate 4 digit codes
- Codes are set easily by internal links
- Door Relay - One voltage-free contact (2A)
- Support for external time control of codes
- Spy cover & rain cover options
- Opening time: 1 - 30 secs

K-44Duo Features - Increased Codes

Programmable via the keypad, comes factory-set with four codes, configurable up to 30 codes. Features a bell & duress facility

- Twenty 4-digit codes & ten 6-digit codes
- Two relay outputs provided to control a wide variety of devices
- Code blocked after 3 wrong attempts
- Anti-tamper switch
- Exit request and door contact inputs
- Opening time: 1-90 secs
- Spy cover & rain cover options

(employees, tenants contract tradesmen for example) but more importantly restrict the entry of unwanted visitors. Bewator Codelocks enable both internal and external doors to be secured without the need of resorting to conventional keys which could be easily lost, copied or stolen.

By specifying Bewator Codelocks, commercial and private property is protected and personal safety is increased.

K-12 Features - Increased Codes + Alarm Bypass

Single door Codelock incorporating Alarm Bypass functionality. Four code combinations, can also be set to advanced mode (30) codes. Programmable via the keypad which is back lit for low light conditions.

- Twenty 4-digit codes & ten 6-digit codes
- Two relay outputs provided to control a wide variety of devices
- Code blocked after 3 wrong attempts
- Anti-tamper switch
- Exit request and door contact inputs
- Opening time: 1-90 secs
- Spy cover & rain cover options

Joint Specification

- Dimensions (mm): 140H x 80W x 40D
- Flush mountable with BB3 back box: overall dimensions (mm) 197H x 117W
- Power supply: 12-24V ac/dc
